

Winning Points

1. **HIGHEST FIRST:** We use only the highest quality, therapeutic grade, certified organic or wild harvested essential oils, carrier oils and hydrolates, exceptional in their purity.
2. **PURITY:** VEDAROMA Essential oils are derived from plants that are naturally cultivated without the use of chemical additives.
3. **QUALITY CONTROL:** We are starting to grow and process essential oils on our own certified organic farms. This gives us greater quality control.
4. **GREATER POTENCY:** Our essential oils are derived through a slow distillation process, at lower temperatures. This ensures the retention of all the active components in the oils, resulting in greater potency, effectiveness and a more delightful fragrance.
5. **UNIQUENESS:** All our products are energised, after bottling, using a unique and highly effective water vortex system. This raises the bar on quality.
6. **LONGER SHELF LIFE:** For longer shelf life of our oils, oxygen is dispelled from the bottle to avoid oxidation during the capping process.
7. **LIFE SUPPORTING:** We play soft melodies in our production and storage facilities to create a life supporting influence.
8. **TRIED AND TESTED:** Aroma Therapy Consultants comment that VEDAROMA essential oils are more potent and immediately effective compared to other brands.
9. **WELL ORIENTED:** VEDAROMA production and storage is always and only in well-oriented buildings that uphold basic principles of architecture according to Natural Law.
10. **NAME AND FORM:** VEDA means Total Knowledge and its infinite organising power. The name VEDAROMA on our labels, according to research on name and form in Japan, brings this quality of life to our product.
11. **CREATING WORLD PEACE:** Our support of peace promoting projects throughout the world and our love, recognition, respect, and appreciation for the healing power of Mother Nature in plants and flowers is another important ingredient in our product.

Fifty-six (58) VedAroma Essential Oils are certified organic for EU by EcoControl GmbH according to NCS (Natural Cosmetic Standard).

The NCS standard was developed by GfW Gesellschaft für Angewandte Wirtschaftsethik (Society of Applied Ethics in Business) in cooperation with EcoControl GmbH, Germany.

NCS regulates the requirements of certified natural cosmetics and certifies the organic quality of the ingredients in the products.

Certificate Number:
SCES 004

Fifty (54) VedAroma Essential Oils are certified organic for the European Union by IMO (Institut für Marktökologie).

IMO is an international certification and inspection agency founded in Switzerland in 1990, providing quality assurance of eco-friendly products, organic agriculture and management systems, and sustainable development programs.

Fifty-six (58) VedAroma Essential Oils are certified organic according to NSF. NSF International is one of the most respected independent certification organizations in the world and is accredited by the American National Standards Institute (ANSI).

NSF has developed the organic certification standard NSF/ANSI 305: Personal Care Products Containing Organic Ingredients for products that are not certified as food.

Certificate Number: 1007

Forty (36) VedAroma Essential Oils are certified organic for USA by MVOAI (Maharishi Vedic Organic Agriculture Institute).

MVOAI is known for maintaining the highest USDA NOP standards.
